- Staying connected from the road via FactSet's **mobile app** for your iPhone, iPad, Android
- And much more!

The screenshot displays the FactSet Wealth Workstation interface, which is divided into several key sections:

- Market Watch:** A large table at the top showing real-time market data for various sectors like Financials, Health Care, and Industrials. It includes columns for Symbol, Last, Chg, % Chg, and YTD%. A sub-table for 'Consumer Discretionary' is also visible.
- Quote & Chart:** A detailed view for Apple Inc. (AAPL) showing its current price at \$150.72, along with a price chart and key financial metrics like EPS, P/E, and market cap.
- News:** A section on the left displaying the latest market news, such as 'MacRumors - Death: Amazon Discounts 11-inch M2 iPad Pro to New Best-Ever Price of \$729'.
- Revenue Exposure:** A series of charts on the right side:
  - Revenue Exposure by Country/Region:** A bar chart showing exposure to various countries, with the United States being the largest at 60.5%.
  - Exposure by Geographic Revenue vs Domestic:** A donut chart comparing 60.5% of revenue from the United States to 100.0% domestic revenue.
  - Revenue Exposure by Super-region:** A donut chart showing exposure to Africa/Middle East (3.5%), Americas (65.7%), Asia/Pacific (17.9%), Europe (13.7%), and Rest of World (2.6%).
  - Revenue Exposure by Economy:** A bar chart comparing 2021 and 2022 exposure across Developed (79.7%), Emerging (15.4%), Frontier (2.3%), and Rest of World (2.6%) economies.
